

PART III
APPENDIX 1
CLOSURE PLAN

**PART III, APPENDIX 1
CLOSURE PLAN**

The facility's closure plan is prepared in accordance with applicable portions of Chapter 330, Subchapter K (§330.451 through §330.465) relating to Closure and Post Closure.

§330.459 Closure Requirements for Municipal Solid Waste Storage and Processing Units

§330.459(a)

Upon closure, the owner or operator will remove all waste, waste residue, and any recovered materials. All facility units will be dismantled and removed off-site or decontaminated.

§330.459(b)

The owner or operator will evacuate all untreated medical waste to a TCEQ authorized facility and disinfect all receiving, processing and post-processing areas. Final disposition of treated medical waste will be at an authorized facility.

§330.459(c)

In the event of a release from the facility, the executive director may require an investigation into the nature and extent of the release and an assessment of measures necessary to correct an impact to groundwater.

§330.459(d)

This facility will not recycle or store combustible material therefore this section is not applicable.

§330.461 Certification of Final Facility Closure

§330.461(a)

No later than 90 days prior to the initiation of final facility closure, the owner or operator will, through a public notice in the newspaper(s) of largest circulation in the vicinity of the facility, provide public notice for final facility closure. This notice will provide the name, address, and physical location of the facility; the registration number; and the last date of intended receipt of waste. The owner or operator will also make available an adequate number of copies of the approved final closure plan for public access and review.

The owner or operator will also provide written notification to the executive director of the intent to close the facility and place the notice of intent in the site operating record.

§330.461(b)

Upon notification to the executive director of the intent to close the site, the owner or operator will post a minimum of one sign at the main entrance and all other frequently used points of access for the facility notifying all persons who may utilize the facility or site of the date of closing for the entire facility or site and the prohibition against further receipt of waste materials

after the stated date. Further, suitable barriers will be installed at all gates or access points to adequately prevent the unauthorized dumping of solid waste at the closed facility or site.

§330.461(c)

Within 10 days after completion of final closure activities of the facility, the owner or operator shall submit to the executive director by registered mail the following:

- (1) No waste will be left on-site in the event the facility begins the closure requirements, therefore an Affidavit to the Public in accordance with §330.19 and §330.457(g) are not required;
- (2) A certification, signed by an independent licensed professional engineer, verifying final closure has been completed in accordance with the approved closure plan. The submittal to the executive director will include all applicable documentation necessary for the Commission's certification of final facility closure; and
- (3) Upon closure of the facility, the owner or operator will request a voluntary revocation of the registration.

§330.461(d)

A certified notation on the deed to the facility property is not required for this Type V MSW facility. Therefore, this section is not applicable.

§330.463 Post-Closure Care Requirements

Post-closure care requirements are not applicable to this Type V MSW Facility. All waste and waste residue will be removed from the site during closure and there are not applicable post-closure monitoring programs.
